### **ANNEXURE-I**

#### i) <u>Teaching-Learning Reforms</u>

Higher Education in India presently confronts challenges like mismatch between degree and employability, lack of confidence and self-reliance among the youth, lack of moral and holistic base, lack of socialization, tendency of serving for other countries.(indirectly promoting brain drain).

In the present set up the syllabus/curriculum is so designed by University that hardly does the institution afford to rear the aforesaid values among its students. Through keeping in mind the lapses and weaknesses, the institution at times invites resource persons, preachers from different sectaries to imbibe morals and values, still it does not having strong bearing upon their mind. For the purpose there should be planned and systematic orientations from the childhood which they lack in. However, the institution puts its best efforts to make some transformation in their character so that they can realize the beauty of obligation, service sacrifice, dutifulness as a citizen of the future, in spite of being a burden for the country always seeking and searching for service, employment (Promoting corruption).

### **ANNEXURE-II**

#### li) Achievement Level Test

Higher Education, no doubt aims at enlightening the students academically to higher vistas of knowledge. But the lack of moral-base makes their learning hollow. In such a scenario, the practices adopted by the institution and inculcated by the agencies like NSS and YRC partially fulfil its obligation for the society and country. Individually without a realization of humanity is meaningless. Hence, humanitarian values like honesty, integrity, transparency, and sympathy compassion are imbibed on them which well equipped them to face the challenges confidently in the long-run without being trapped by frustration and despair in life.

## Feedback of the Employer

The Principal is well-connected with the members of the Alumni Association as he is a local person having personal relationship with the most of the Alumns. Moreover, he is serving in the college for 34 years for which he involves himself and the members of alround development of the college.

As and when the institution is in deep trouble, he seeks co-operation and help from them. Besides, he persuades the Alumns to construct 4 rooms on ground floor of the administrative building. The rooms are used by the students for teaching-learning process and other activities. Construction of rooms on 1<sup>st</sup> floor enhances confidence of the students and teachers as well as the prospective students likely to be admitted in the institution.

However, he feels dignified and expresses his pragmatic views for self-less involvement of the Alumnis in future.

### Feedback of the Employer

We are delighted to see the on-going preparation and experimentation for strengthening the wards. Academically quality is assured through regular examination, assessment and remedial classes. Even spiritually and morally the colleges arranges lively classes to provoke in them a rationalistic approach to life. Even the UGC sponsored schemes like Career Counseling and Entry into Services greatly support them. Above all, the college stands by the students to help them stand on their own feet.
